

ógin

ÓGIN Arctic, 45.5% 70cl

Artic playfully tips its hat to the essence of Sloe Gin, yet it distinguishes itself through the infusion of arctic berry juice, resulting in a captivating flavor and hue that stands apart from traditional sloe berries.

This creation boasts a natural profile, void of added sugars. Its foundation is woven from quintessential elements, including the robust essence of northern juniper, the invigorating charm of freshly harvested bog myrtle, the delicate sweetness of meadowsweet, the earthy notes of angelica, and the vibrant interplay of freshly plucked currant and coriander leaves.

Additionally, a curated selection of distinct herbs, exclusive to the current vintage, lends a touch of uniqueness to the blend.

Herbs and botanicals from this year's seasons. Infused with arctic berries.
