

ÓGIN Cloud 47% 70cl

Abundant sun-ripened cloudberry provide both the flavor and hue for Ógin Cloud.

The maturation process begins in String Casks before the cloudberry are introduced. The foundation mirrors that of all Jón Óskar gin varieties: comprising northern juniper, fresh bog myrtle, meadowsweet, angelica, and freshly plucked leaves of currant and coriander. Additional herbs are incorporated to varying degrees.

This is a reflection of inspiration and the botanical availability of that specific year. Each vintage emerges as a distinctive creation.

Herbs and botanicals from this year's seasons. Infused with cloudberry. Aged in Swedish oak barrels.
